HWL Survey. At long last, the 1980 survey of women attorneys in Hawaii has been completed. The data has been compiled and is ready for distribution. An article appeared on p.25 of the January 30, 1984 issue of Pacific Business News regarding the results of the survey. An interesting piece of information from the survey is that in 1980, women attorneys believed that they were discriminated against more by their peers than by their clients. More information on obtaining a copy of the survey results and tidbits from the survey will appear in next month's newsletter.
